Strategic Renewal Plan 2012

A Strategic Renewal Plan is for the benefit of the whole school community. It enables us to establish goals and identify strategies for achieving these goals. The Strategic Renewal Plan also provides a framework for accountability to the Brisbane Catholic Education Archdiocese and governments on an annual and five yearly basis when we evaluate how well we have met our articulated goals.

Individual Growth

Goals:

2.2 Curriculum
By the end of 2012 we will be using the Australian Maths Curriculum following the school’s documented Implementation Plan so that we will have a consistent school approach to planning, teaching and reporting.

By the end of term 2 we will source funding to provide additional technology in the classroom so that our students have enhanced opportunities to extend on their digital literacy.

2.5 Reporting
By the end of term 2 we will be utilising a new Student Reporting System so that our student reports reflect our School Motto, Australian Curriculum and meet system-wide requirements. (This will also involve educating our community about our entire reporting process in general.)

3.5 Gifted and Talented
By the end of 2012 we will aim to provide opportunities for School Officers to train as facilitators in gifted and talented programmes so that students have enhanced opportunities to extend their learning.

Christian Values

Goal

1.2 Evangelisation and Faith Formation
By the end of the Semester 1 we will have imbedded the School Motto into key school documents so that our community understands that these key elements underpin our approach to education.

Catholic Family

Goals:

2.6 Evaluation and Forward Planning
By the end of each term class teachers will meet with each member of the curriculum team (Principal, CST, CIT) so that planning documents are consistent and align with the new Australian Curriculum.

By week 1 of term 1 we will enact the documented scope and sequence for collecting and reviewing student learning data so that forward planning meetings can be guided by the information contained within this data.

6.2 Leadership and Management
By week 1 of term 1 we will extend the Leadership Team at St Joseph’s so that a team approach to planning, support and decisions occurs.

7.1 Budgeting and Finance
By the end of term 3 we will have developed a draft budget for 2013 so that the wisdom of the wider community (including the School Board) can contribute to the published budget.

8.3 Monitoring and Self-Review Process
By the end of term 1 the Leadership Team will outline and publish a timeframe for the Internal School Review Process for 2012 so that staff and parents are focused on the continual improvement of school performance and student educational outcomes.
