On Wednesday, the 10th of September, Year 6/7 had a visit from the Isis High Ag Class. They brought along the animals they work with to give our students an idea of what is involved in an Agriculture class. It also gave the high school students a chance to showcase their animals and explain how they care for them.

We met one of the cows. She was very quiet and happy to let us pat her. We all had a turn leading her around.

The ducks and chickens were very cute.
The baby goat was adorable,

and friendly.

It really liked Anderson.
The high school students also brought along some Blue Claw crayfish. We learnt a little about them and how to handle them.

We had a turn at holding them – very carefully.

Watch those claws!
These crayfish are scary!

The high school stayed for an hour treating the Year 6/7’s to a morning of fun learning and laughter while getting to know the animals. When it was time to leave, the Blue Claw, goat, ducklings and chickens were all packed into the car. The cow had to walk back, and what a sight it was!
The cow had good road sense and behaved beautifully crossing the road.

It was easy to see the students had a special bond with all the animals and enjoyed being with them.

Thank you Isis High.
