Year 3 Visit to the Observatory

Last Wednesday night the Year 3 class travelled to the Alloway Observatory. As we set off on our adventure, the sky was clear, perfect for some star gazing. However as we arrived, so did the clouds! Sadly our stargazing was not to be. This did not dampen the enthusiasm of the children who listened attentively to our guide and asked some thought provoking questions.

We did get to see the moon through one of the telescopes, where the craters were so clear to us. There was also an opportunity for a photo shoot, where the children climbed a ladder to look through the massive telescope – even if it was only at the wall!

Thanks so much to the Mums, Dads and Grandparents who drove us over and made this excursion possible. Thanks also to the Year 3 children for their enthusiasm and fine behaviour.
