Dear Parents and Caregivers,

Welcome to the final term of year 3! It is hard to believe that we are almost at the end of the year. Term 3 is quite a short term with only 9 weeks and is often the busiest so be sure to look out for key dates in each week’s newsletter.

Please see attached the Learning Overview for information about what we are covering in each learning area this term. If you ever have any queries or concerns about your child’s progression or what we are doing in the classroom please feel free to come in (or if you think it will take some time to discuss, please call to organise a meeting time to see either myself or Helen).

Science excursion

To support our Science Unit outlined on the Learning Overview, we will be visiting the Observatory in Bundaberg on Monday 12th November. Due to the nature of this excursion, it requires us to visit at night. The excursion will commence at the Observatory at 6.45pm and finish at 8pm, which means we would need to be leaving school at approximately 5.45pm.

Due to the time of the excursion and the size of our class, we are asking if there are any parents who would be willing to drive and take some extra children in their vehicle. If you are able to help us out, please indicate this at the bottom of this note and return to school by the end of this week.

Further details will be sent home when we finalise travel arrangements.

Regards,

Mrs Helen Freshwater and Mrs Rachel Medley

Year Three Teachers
