Dear Parents,

This term is going to be a busy term for your children. This message is just to inform you what we are up to in the Year 4/5 room.

**Religion:** - We are looking at the different prayers we use, look at the message they are giving us and how they can become a part of our lives.

**English:** - In English we are doing a unit called (Which one should we use?) This is a look at different forms of writing (e.g. story writing, report writing, letter writing etc.) and work out when we would use these different forms of writing in our lives.

**Mathematics:** - The major concept we are looking at this term is Measurement (Length, Weight, Volume and Capacity, Angles etc.) There will be a lot of hands on activities and there are a few things the students will need. (*Ruler and Protractor*)

**Science:** - We are exploring “Light and Its Sources”. Throughout this unit we will be investigating some of the topics below through experiments, activities and comprehensions. We will be asking questions like:-
1. What is light?
2. Are there different forms of light?
3. Reflection and Refraction what do these words mean?
4. How does our eye use light?
5. How are rainbows made?

And many more questions we will find answers to.

**Art:** - In Art we will be working with “Stop Go Animation”
